

REMARKS

Claims 1-50 are pending in this application. The Cross Reference to Related Applications section of the written description is amended to add those serial numbers that are now available from the USPTO.

Figs. 7 and 8 appear in U.S. Patent Application 10/814,932, which was incorporated by reference into this application in its entirety at the time of filing, and in addition are described in the written description of this application. Accordingly, explicit presentation of Figs. 7 and 8 in this application does not constitute new matter. MPEP § 2163.07(b).

Favorable action is solicited. The Examiner is invited to contact the undersigned attorney by telephone, mail or electronic mail in order to advance prosecution. Applicants acknowledge that a copy of any electronic mail communications will be made of record in the application file per MPEP § 502.03.

Respectfully submitted,

PETER E. HART *et al*
